

2019-2020 Call – Biodiversity and Climate Change

***2019-2020 COFUND CALL ON
Biodiversity and Climate Change***

Funding organisation funding rules

You will find in this document all the eligibility rules of the different Funding Organisations participating to this Call.

Please note that the document may be adjusted. We invite you to make sure you have the latest version. If a new version is uploaded on the website, a warning message will be indicated on the [BiodivERsA](#) website.

Please make sure to consult these rules and to contact your Funding Organisations Contact Point for more information, in case of any doubt.

We draw your attention on the fact that **compliance to Funding Organisations eligibility criteria and rules is mandatory**. Proposals that do not meet these criteria will be declined without further review.

Nota Bene:

*Please note that for the 2019-2020 Call, we will fund **classic collaborative research projects**, producing new primary data and generating new knowledge.*

Unlike the [2018-2019 Call](#), there is no specific action in this call to fund synthesis research projects.

FWF Austrian Science Fund

Who is addressed by this information?

This document contains information on specific requirements for Partners applying for FWF funding. Please note that **it is mandatory to follow the requirements described below**. To make sure that all requirements are met and to receive latest information, please contact your respective funding organisation contact point.

IMPORTANT INFORMATION:

In addition to the application at the call secretariat, administrative data (in accordance with the FWF guidelines for stand-alone projects) must be submitted online to the FWF at <https://elane.fwf.ac.at/>

This is required already at the pre-proposal stage via the programme category “IK – International Projects (preproposal, deadline 05. November 2019)”.

For the full proposal stage, applicants must choose the programme category “I – International Projects”, Deadline 10. April 2020. Both steps are mandatory.

For submissions to be valid, the cover sheet generated at the end of the online submission process must be printed out and signed. It can then either be sent to the FWF by conventional mail (FWF, Sensengasse 1, 1090 Vienna) or scanned in, given a digital signature and sent to the FWF (office@fwf.ac.at) as an e-mail attachment.

Please note that the number of ongoing/approved projects in which one researcher can serve as principal investigator is limited to three in the Stand-Alone Projects Programme, International Programmes, Clinical Research and Arts-Based Research Programmes. Information on the limit of the number of ongoing/approved projects and thus the limit of applications that can be submitted can be found at https://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/project_number_limit.pdf

For information on submitting an application from abroad see the FWF Website at <https://www.fwf.ac.at/en/research-funding/applications-from-abroad/>

Applicants must show that they possess the research qualifications needed to carry out the project by means of a publication record over the last 5 years commensurate with their career stage, which demonstrates their international visibility.

The following criteria are decisive in assessing an applicant’s publication record and initiating the review process:

- **Peer review:** All the publications listed (or more than half in the case of the humanities) must have been subject to a quality assurance procedure in line with high international standards, which usually means that journals should be listed in the Web of Science, Scopus, or the Directory of Open Access Journals (DOAJ). For journals not listed in those databases, or monographs, edited volumes or contributions therein, or other publication types, the peer-review procedure must be documented on the publisher's website to which applicants should provide a link. Should no such documentation be available on the website, it is the applicant's responsibility to provide evidence that the publication has been subject to an appropriate quality assurance procedure.
- **Number and quality** of the applicant's publications must be commensurate with his/her career stage. At least two publications must be peer-reviewed and internationally visible publications with a substantial and independent contribution on the part of the applicant.
- **International nature:** In the natural sciences, life sciences, and social sciences, most of the publications listed must be in English. In the humanities and cultural studies, as well as arts-based research, most of the applicant's publications must have a wider than national reach.

Should an applicant fail to meet one or more of the above criteria, the applicant must include an explanation with the application. In cases of doubt, the decision-making bodies of the FWF shall decide whether the research qualifications are adequate.

Eligible themes and environment	No restriction
Additional specific rules	<p>Please note that starting on August 1, 2018, the number of ongoing/approved/submitted projects in which one researcher can serve as principal investigator will be limited to three in the Stand-Alone Projects Programme, International Programmes (including ERA-Net projects!), Clinical Research and Arts-Based Research Programmes. Principal investigators who already have three ongoing/approved/submitted projects will not be permitted to submit another application within those programmes until 12 months before the end of one of their ongoing projects. You are strongly advised to contact the national representative in case you may be affected by this regulation.</p>

BUDGET

Minimum and/or maximum requested budget per Partner and/or per Project	The FWF anticipates the funding of four projects, given the maximum commitment of € 0,8 Mio.
Eligible Personnel costs (permanent/temporary)	<p>The application should include all persons, in addition to the staff already available, who will be required for work exclusively on the proposed project.</p> <p>The available legal categories of employment are contracts of employment for full-time or part-time employees (DV) and reimbursement for work on an hourly basis (GB). In addition, a part-time contract of employment (50% contract of employment for student assistants) may be requested for researchers who have not yet completed a master's or diploma (<i>Diplom</i>) degree programme in the relevant subject area.</p> <p>The current FWF salary scale (http://www.fwf.ac.at/en/research-funding/personnel-costs/) indicates the salaries that may be requested. The FWF grants an annual salary adjustment to compensate for inflation; this is applied automatically to all contracts of employment in stand-alone projects that are valid when the adjustment takes effect.</p>

<p>Should any other costs/expenses be excluded?</p>	<p>For scientists funded by the FWF, the funding is limited to “project-specific costs, i.e. personnel and non-personnel costs that are essential to carry out the project and that go beyond the resources made available from the research institution’s infrastructure, according to the general FWF Funding Guidelines published at http://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-guidelines.pdf.</p> <p>The FWF does not finance infrastructure or basic equipment at research institutions. Overheads may not be requested. Subcontracts must be well justified, i.e. must represent the only or the most economical way to have the work performed, please contact the FWF directly for clarification of individual cases</p>
<p>Subcontracting rules</p>	<p><u>To EU countries:</u> Yes <u>To Non-EU countries:</u> Yes <u>Subcontracting special tasks (i.e. IT services, etc):</u> Yes Independent contracts for work and services (costs for work of clearly defined scope and content commissioned to individuals, provided that it is scientifically justifiable and economical). BUDGET

<p>Minimum and/or maximum requested budget per Partner and/or per Project</p>	<p>Max 250,000€ per Project.</p> <p>A consortium made up of two Belgian partners - being Universities and/or Federal scientific Institutions- is eligible for BELSPO budget providing that the max of 250k€ requested by both Partners together is respected.</p> <p>It is not possible however to combine BELSPO budget with regional budget (FRS-FNRS or FWO funding) within the same consortium. In other words, federal and regional budget cannot be concentrated within one and the same project consortium, also when it implies different researchers and institutions. Consortia with both BELSPO and FRS-FNRS/FWO funding will thus be declared ineligible. Consequently, it is strongly advised to contact the funding contact points in order not to jeopardize the consortium eligibility.</p>
<p>Eligible Personnel costs (permanent/temporary)</p>	<p>Applicants apply for temporary personnel.</p> <p>BELSPO prefers staff to be hired under a labour contract. Pre-tax wages associated with increases in the cost of living, employers' social security and statutory insurance contributions, as well as any other compensation or allowance due by law and secondary to the salary itself and tax-free scholarships.</p> <p>Tax-free scholarships refer to a grant subject to a tax exemption under the tax laws.</p> <p>The staff costs are limited to a maximum amount of:</p>

	<ul style="list-style-type: none"> • 66.000 €/year FTE for a scientist with a Master's degree (regardless of years of experience) • 90.000 €/year FTE for a scientist with a PhD (regardless of years of experience) • 50.000 €/year FTE for a technician (regardless of years of experience)
<p>Should any other costs/expenses be excluded?</p>	<p>Two types of operational costs are eligible:</p> <ul style="list-style-type: none"> • General operating costs. This includes all current expenditures related to the project's implementation such as usual supplies and products for the laboratory, workshop and office, documentation, travel and accommodation, use of IT facilities, software, organisation of meetings, workshops and events, etc. The total amount of these operational costs is set at a flat rate of 15% maximum of the staff budget if applicant is coordinator of a consortium and 10% maximum of the staff budget for a partner. • Specific operating costs (invoices will be required): this includes specific operating costs not covered by the general operating costs such as costs for analysis, maintenance and repair of specific equipment purchased by the project, surveys, ... <p>Equipment cost: Purchase and installation of scientific and technical apparatus and instruments, including computer hardware. Equipment needs to be purchased in the first half of the project.</p> <p>Overheads : Institutions' general overheads that cover, in one lump sum, administration, telephone, postal, maintenance, heating, lighting, electricity, rent, machine depreciation, and insurance costs. The total amount of this item may not exceed 5% of the total staff and operating costs.</p>

Subcontracting rules	Subcontracting is allowed for expenses incurred by a third party (either in EU or Non -EU countries) to carry out tasks or provide services that require special scientific or technical competences outside the institution's normal area of activity. The amount may not exceed 25% of the total budget allocated to the applicant concerned.
Should VAT be included in the budget figures provided for BELSPO	Yes

Who is addressed by this information?

This document contains information on specific requirements for Partners applying for FWO funding. Please note that **it is mandatory to follow the requirements described below**. To make sure that all requirements are met and to receive latest information, please contact your respective funding organisation contact point.

IMPORTANT INFORMATION:

The FWO Strategic Basic Research Projects, next to the fundamental research projects, are also integrated in this call, with specific regulations. It is, in the light of the projects' eligibility, of utmost importance to respect these rules, e.g. when it comes to the mandatory valorisation aspect. It is consequently strongly advised to contact the FWO contact points (see below) in order not to jeopardize any research projects.

ELIGIBILITY

Eligible Institutions/Persons <i>(incl. industry and funding rates)</i>	The eligibility of institutions and its researchers can be verified in the relevant regulations: → For Fundamental research, see articles 10-12 → For Strategic Basic Research, see articles 4-8
Eligible themes and environment	No restriction. All themes are fundable, if they fit the appropriate funding channels' scope.
Additional specific rules	Strategic Basic Research projects imply projects with a primarily economic or societal finality. Valorisation is a mandatory feature in the SBO applications. One and the same researcher can only participate in 2 different research projects/consortia when applying for FWO funding, within the same call.

BUDGET

Minimum and/or maximum requested budget per Partner and/or per Project	Maximum requested budget per project amounts to 350.000 EUR (incl. overhead) Beware, the funding rules differ per FWO funding channel (FO and SBO)! It is not possible to combine FWO budget with federal budget (BELSPO funding) within the same consortium. In other words, regional and federal budget cannot be concentrated within one and the same project consortium, also when it implies different researchers and institutions. Consortia with both FWO and BELSPO funding will thus be declared ineligible. Consequently, it is strongly advised to

	contact the funding contact points in order not to jeopardize the consortium eligibility.
Eligible Personnel costs (permanent/temporary)	Only temporary personnel can be remunerated.
Should any other costs/expenses be excluded?	<p>The respective funding channels regulations apply (see link to national rules above), and both are capped at max. 350.000 EUR per project.</p> <p>For the overhead calculation the fundamental (FO) and strategic research projects (SBO) differ:</p> <ul style="list-style-type: none"> - FO: a 6% structural overhead should be calculated on the direct costs. E.g.: the sum of all costs (personnel, consumables, travel, etc.) amounts to 300.000 EUR, then the overhead will amount to 18.000 EUR (6% of 300.000 EUR) and the total requested cost 318.000 EUR. This total requested cost may never exceed 350.000 EUR. (for additional information see chapters 7 and 8 in the project regulations) - SBO: The SBO cost model applies.
Subcontracting rules	<p><u>To EU countries:</u> Yes, but with limitations. Contact the FWO-administration/contact point to verify the eligibility of a certain type of cost.</p> <p><u>To Non-EU countries:</u> Yes, but with limitations. Contact the FWO-administration/contact point to verify the eligibility of a certain type of cost.</p> <p><u>Subcontracting special tasks (i.e. IT services, etc):</u> Yes, but with limitations. Contact the FWO-administration.</p>
Should VAT be included in the budget figures provided for the FWO	Yes

Who is addressed by this information?

This document contains information on specific requirements for Partners applying for BNSF funding. Please note that **it is mandatory to follow the requirements described below**. To make sure that all requirements are met and to receive latest information, please contact your respective funding organisation contact point.

IMPORTANT INFORMATION:

Applicants under this procedure shall be directly responsible for the implementation of the activities under the project proposal and shall not act as intermediaries, but they shall carry out activities under the project proposal on their behalf and at their expense.

Applicants to this procedure must be entities:

- Carrying out fundamental research studies; and
- Whose activities are entirely of a non-profit nature; or
- Whose activities are of both for-profit and not-for-profit nature, but these activities are clearly distinguished and their organization allows tracking of revenue and expenditures connected with their implementation, including by keeping analytical accounting. In the event that an applicant is involved in both for-profit and not-for-profit activities, the funding, expenditures and revenues shall be taken into account separately for each type of activity and on the basis of consistently applied principles of accounting of expenditures being justifiable.

As a service for the German community, all submitted full proposals including funds applied for at a German research funding organization will be processed according to a uniform procedure. In addition to the mandatory submission of all proposals to the BiodivERSA Call Secretariat, all proposals applying for *DFG* or *BMBF/DLR-PT* funds must be submitted to DFG via the [DFG elan portal](#). Please note that this also applies to applicants who only are eligible pursuant to the BMBF/DLR-PT guidelines. The proposal documents must be submitted via the DFG elan portal by the same deadline plus two working days as the full proposals to the BiodivERSA Call Secretariat. Subsequently, responsibilities for applications will be assigned among German funding agencies.

2) Technical advice

Submission of full proposals via DFG's Electronic Proposal Processing System (elan)

For each member of the consortium applying for funding from a German research funding organisation (DFG or BMBF/DLR-PT) the following process must be followed. In the following, these members of the consortium are referred to as "German applicants", which only means that they are applying for "German money", but not that these applicants' nationality must be German.

Please note that before submission of the full proposal, each German applicant must be registered in the elan system. (Registration of all German applicants should be finished three weeks in advance of the deadline for submitting full proposals at the latest.)

The proposal form (elektronisches Antragsformular) must be submitted via the DFG's Electronic Proposal Processing System (elan).

Please select as follows:

- Proposal Submission / New Project (Antragstellung / Neues Projekt)
- Individual Grants Programme (Einzelförderung)
- Proposal for a Research Grant (Antrag auf eine Sachbeihilfe)
- -> Start online form (-> Online-Formular starten)

For information on and access to elan go to

http://www.dfg.de/en/research_funding/principles_dfg_funding/elan/index.html

After submitting the proposal, you will automatically receive a compliance form by e-mail. This form must be printed out and returned to DFG with the original signatures of all German applicants.

3) Important information on eligibility for researchers from non-university Institutions:

DFG

The duty to cooperate does not apply for this call. ("Es gilt keine Kooperationspflicht.")

BMBF/DLR-PT

All applicants from non-university research organisations (Helmholtz, Max-Planck, Leibniz Centres) must follow specific application rules (cf. section ELIGIBILITY). These applicants should contact the *Funding Organisation Contact Point (FCP) at DLR-PT*.
