BiodivFuture Call

Biodiversa+ Info Day, 10. 9. 2026
Ondřej Kusbach

Biodiversity Partnership Call 2026: (BiodivFuture Call) (SIGMA)

“Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories – BiodivFuture”

Topics/Themes:

- Novel Ecosystem Functioning
- Pathways to Novel Ecosystems
- Biodiversity Benefits and Equity in the Context of Novel Ecosystem

Czech applicants may freely combine topics within the project.

All environments/realms can be chosen.

The result or results must be applicable in practice and must be usable under conditions in the Czech Republic.

Biodiversity Partnership Call 2026: (BiodivFuture Call) (SIGMA)

“Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories – BiodivFuture”

Applicants:

- research organizations;
- enterprises

Applicants that are not research organizations should select the “enterprise” applicant type (e.g., organisational units of the state, associations, registered foundations, and other nonprofit organizations, self-employed individuals, or subsidized organizations)

Biodiversity Partnership Call 2026: (BiodivFuture Call) (SIGMA)

“Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories – BiodivFuture”

Budget and funding intensity:

Call budget of TA CR: 1 000 000 EUR

Maximum funding amount per project: 170 000 EUR

Maximum funding rate (intensity) per project: 80 %

If beneficiaries plan to start the project in December 2027, they will include any eligible costs for 2027 in the costs for 2028.

Biodiversity Partnership Call 2026: (BiodivFuture Call) (SIGMA)

“Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories – BiodivFuture”

Timeline:

Call launch: 9. 9. 2026

Pre-proposals submission deadline: 10. 11. 2026, 12:00 CET

Deadline to send the mandatory documents to TACR : 10. 11. 2026, 12:00 CET

Expected full proposals submission deadline: 16. 4. 2027, 12:00 CEST

Expected notification of accepted proposals: September 2027

Start of the funded projects: between December 2027 and April 2028

Biodiversity Partnership Call 2026: (BiodivFuture Call) (SIGMA)

“Novel ecosystems: biodiversity, socio-ecological consequences and future trajectories – BiodivFuture”

Mandatory documents to be submitted to TA CR:

Sworn statement of the applicant - submitted by each applicant

TA CR Application Form - submitted by Main applicant

Financial statements for years 2022, 2023 a 2024 - submitted by each applicant of the enterprise type, unless they are published in the Public Registry

Sworn statement for the Consortium - submitted by the Main applicant only if a Czech enterprise is part of the project consortium

Mandatory annexes to results - submitted by the Main applicant only for results of the *NmetS* a *O - patent application* type

The applicant shall send the required documents from their data box to the TA ČR data box (ID: afth9xp). In the “SUBJECT” field, the applicant shall enter:
Horizont Evropa - Partnerství pro biodiverzitu Call 2026 - prokázání způsobilosti
- *akronym projektu*”.

How do the multilateral calls work?

- A project submitted to an international call must meet the transnational eligibility criteria of the call
- Project partners must meet the requirements of their national funding agencies
- There is no (preliminary) selection process at the national level
- Joint ranking lists based on international evaluations
- The highest-ranked proposals are then selected for funding
- For this call, it is also possible to involve partners who do not have a funding provider in the call (self-financed)

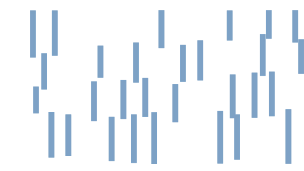

Multilateral Schemes

European co-funded Partnerships (EUPs)

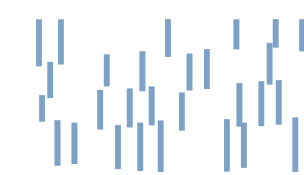

Water4All

Quality of and access to water

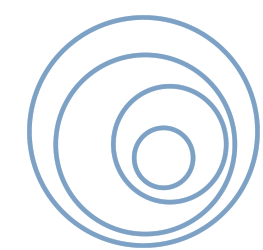

Driving Urban Transitions (DUT)

Energy, Circular economy, mobility

Clean Energy Transition (CET)

Clean energy

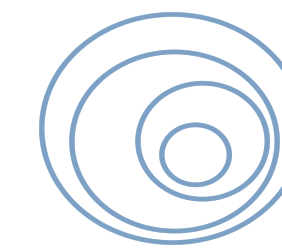

Biodiversity Partnership

Biodiversity

Raw Materials for the Green and Digital Transition

Critical raw materials supply

Forests and Forestry for a Sustainable Future

healthy, biodiverse, and resilient forests

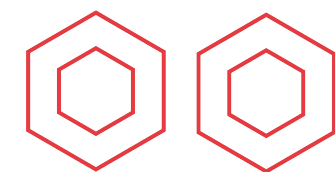

EUROSTARS 3 / InnovSMEs

Innovative SMEs

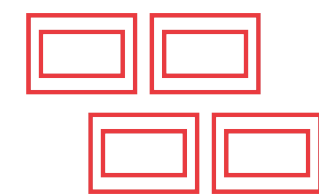

Multilateral Schemes

CSA, RIA, (ending) ERA-NET Cofunds, and other projects

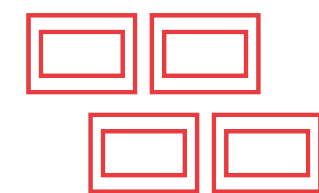

LUKE

R&D cooperation with Ukraine

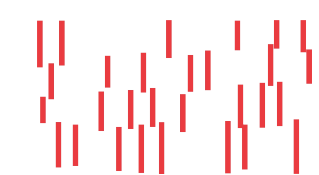

M.ERA-NET 4

Materials research and innovation

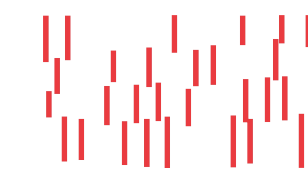

ERA-MIN**

Raw materials research

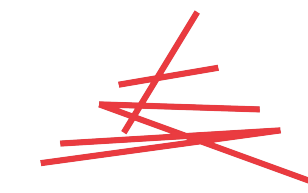

EnerDigit**

Digital transformation for green energy transition

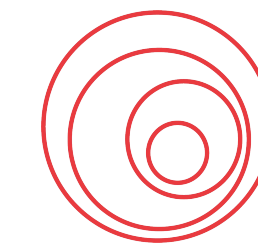

CHIST-ERA V*

Information and communication technologies (ICT)

QuantERA III

Quantum technologies

BiodivRestore**

Conservation and restoration of degraded ecosystems and their biodiversity
